It is possible to be unable to duplicate a problem, because of data corruption or because we have not exactly duplicated a particular operating environment. In such circumstances, we can only continue to try to fix the problem if we can either access the system with Symantec PCAnywhere or by some other means access or duplicate the system.

Item Pricing by Customer/Ship To/Warehouse Features

This Extended Solution adds a new Inventory Item pricing option: by Customer/Ship To Code/Warehouse.

Additional functionality is available if you have Extended Solution SO-1067, *Ship-To/Ship Via by Line Item*, installed and enabled.

Section B: Getting Started

- **If you reinstall or upgrade one of the SAGE 100 modules listed in the following table, you must also reinstall this Enhancement.**
- Enhancements from different Sage Developers are generally not designed to work together. If installed together, problems are likely to occur.
- **Check with DSD before installing more than one Enhancement.**
- **Do not install this Enhancement on MAS SQL Systems.**

Required Levels

| SAGE 100 Module | Module Required | Required Level |
|-----------------|-----------------|----------------|
| I/M | Y | 5.10 |

Installation

1. **Back-up:** Exit all SAGE 100 sessions. Back-up existing SAGE 100 data.
2. **Check Levels:** SAGE 100 module levels must match those listed above.
3. **Run Enhancement Setup Program:** Save the executable installation program (sent to you or downloaded from our website) in a convenient location on the SAGE 100 server. Launch the program from Windows Explorer or by selecting Start/Run, and then browse for the file in the location you saved it. Follow on-screen instructions.
4. **Send your Sage Serial Number to your DSD Representative:** Send your Sage Serial Number to your DSD representative in order for us to send you back the encrypted keys to unlock your system. This serial number can be found in Library Master\Setup\System Configuration, Tab 3. Registration as Serial Number.
5. **Re-Start SAGE 100:** SAGE 100 will be updated.
6. **Unlock the Enhancement:** DSD Enhancements must be unlocked to run. When any part of the Enhancement is run for the first time, the **DSD Enhancement License Agreement and Activation** window will appear. Follow the steps shown on that window. *You can click the Help button for more detailed instructions.*

Note: On the next page is a screenshot of the DSD Enhancement License Agreement and Activation window.

After accepting the License Agreement, you can then select the type of unlocking that you'd prefer. The choices are File, Web, Demo and Manual Entry.

File Unlock: After receiving your encrypted serial number key file from DSD, and placing that file in the MAS90/SOA directory, selecting this option will unlock all products keys contained in the file. This means you can unlock all enhancements at once using this option.

Web Unlock: If the system that is running the DSD Enhancement *has web access* and you *have sent DSD your Sage Serial number*, you can unlock the Enhancement without assistance using Web Unlock. When this option is selected, the program will attempt to download encrypted serial number key file from DSD *and then proceed to unlock all enhancements contained in the file*.

- The Sage 100 system that is being used must have web access for this option to be effective.
- You can send your Sage Serial Number to your DSD Enhancements sales representative.

Demo Unlock: If a Demo mode is available for the Enhancement you're running, you will be able to Demo unlock the product without assistance from DSD for demo purposes.

- *Creating a Demo Unlock is a good way to temporarily unlock DSD Enhancements off-hours, if you do not have web or email access. Later, you can unlock the product fully, during business hours.*

The screenshot shows a software window titled "DSD Enhancement License Agreement and Activation". The window contains the following elements:

- License Agreement:** A text area with the following text: "YOU MUST READ THIS AGREEMENT COMPLETELY AND AGREE BEFORE PROCEEDING. SCROLL THROUGH THIS AGREEMENT USING THE SLIDER CONTROL. IMPORTANT: THIS SOFTWARE IS LICENSED BY DSD BUSINESS SYSTEMS, INC. TO CUSTOMERS FOR THEIR USE ONLY IN ACCORDANCE WITH THE TERMS SET FORTH IN THIS CUSTOMER LICENSE AGREEMENT. OPENING OR USING THIS PACKAGE CONSTITUTES ACCEPTANCE OF THESE TERMS. IF THE TERMS OF THIS LICENSE ARE NOT ACCEPTABLE, THE CUSTOMER MAY OBTAIN A FULL REFUND OF ANY MONEY PAID IF THIS UNUSED, UNOPENED PACKAGE IS RETURNED WITHIN TEN (10) DAYS TO THE DEALER FROM WHICH IT WAS ACQUIRED."
- 1 Agree to License Agreement:** Radio buttons for "Agree" (selected) and "Disagree".
- 2 Select Unlocking Type:** Radio buttons for "Web", "File", "Demo", and "Manual Entry" (selected).
- 3 Call DSD at 858-550-5900:** Fields for "End User Name" (DSD Business Systems) and "Serial Number" (0555188).
- 4 Enter the following from DSD:** A text field for "Activation Key:".
- Click to Unlock:** A button labeled "Unlock Product".
- Buttons:** "Help" and "Exit" buttons at the bottom.
- Status Bar:** Shows "ABC" and "4/28/2010".

Manual Entry Unlock: If you want to unlock a single enhancement using a single encrypted key, you can select this option and enter the 64 character key you receive from DSD by copy and paste.

Note: You can also unlock a DSD Enhancement through the DSD Enhancement Control Panel found on the Library Master Utilities Menu. Then, select the Enhancement with your mouse from the list of Enhancements and click the Unlock Product button on the right side of the window.

- Convert Data:** After registration, the Data Conversion window will appear. Follow on-screen instructions to complete data conversion. *You can exit the conversion program without converting data. The Enhancement will not proceed, however, until data is converted. If you enter an enhanced program and data has not been converted, the conversion program will run again.*

DSD Enhancement Control Panel

Starting with version 3.61, all DSD Enhancement products include DSD's Enhancement Control Panel. The DSD Enhancement Control Panel is accessed from the Library Master Utilities menu.

The DSD Enhancement Control Panel is a simple to use yet powerful system to help maintain DSD Enhancements installed on a SAGE 100 system. To use it, select an Enhancement product from the list on the window and then click the button, on the right side of the window, which corresponds with the desired task.

View Manual: This button will display the product manual for the selected Enhancement using Adobe Acrobat. For this to be possible, the PDF file for the corresponding manual must be in the

“MAS90/PDF” folder in the SAGE

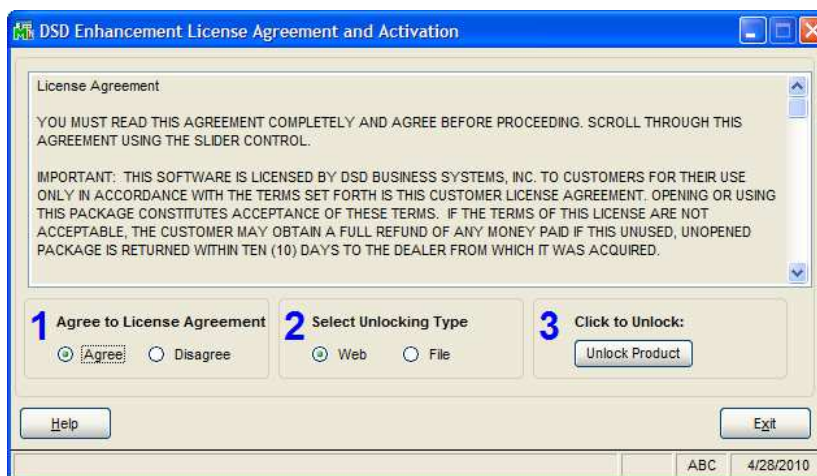

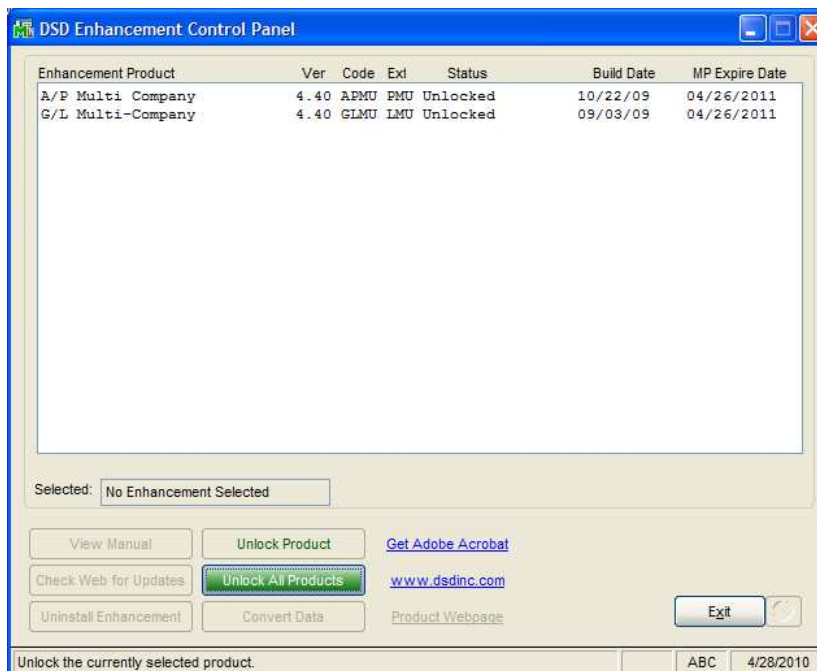

100 system. If the file is not present, and the system has web access, the correct PDF file will be automatically downloaded from the DSD website, put into the “MAS90/PDF” folder and then displayed.

Check the Web for Updates: This button will check the DSD website to see what the current build is the selected Enhancement and alert the user if a later version is available. *This requires an ftp web connection on the Sage 100 system.*

Unlock Product: This will cause the DSD Enhancement License Agreement and Activation window to appear. Using this window is described on the previous page. *This button is disabled if the selected Enhancement is already unlocked.*

Unlock All Products: This will cause the DSD Enhancement All License Agreement and Activation window to appear. This window is similar to the one described on the previous page, but has only web and file

as options to unlock. *This button is never disabled.*

Convert Data: After verification, the selected Enhancements data conversion program will run. Data conversion is non-destructive, and may be triggered any number of times. Sometimes this is required to fix data records imported or updated from a non-enhancement installation.

Help: The Help button, located at the bottom right of the window, opens an HTML help file .

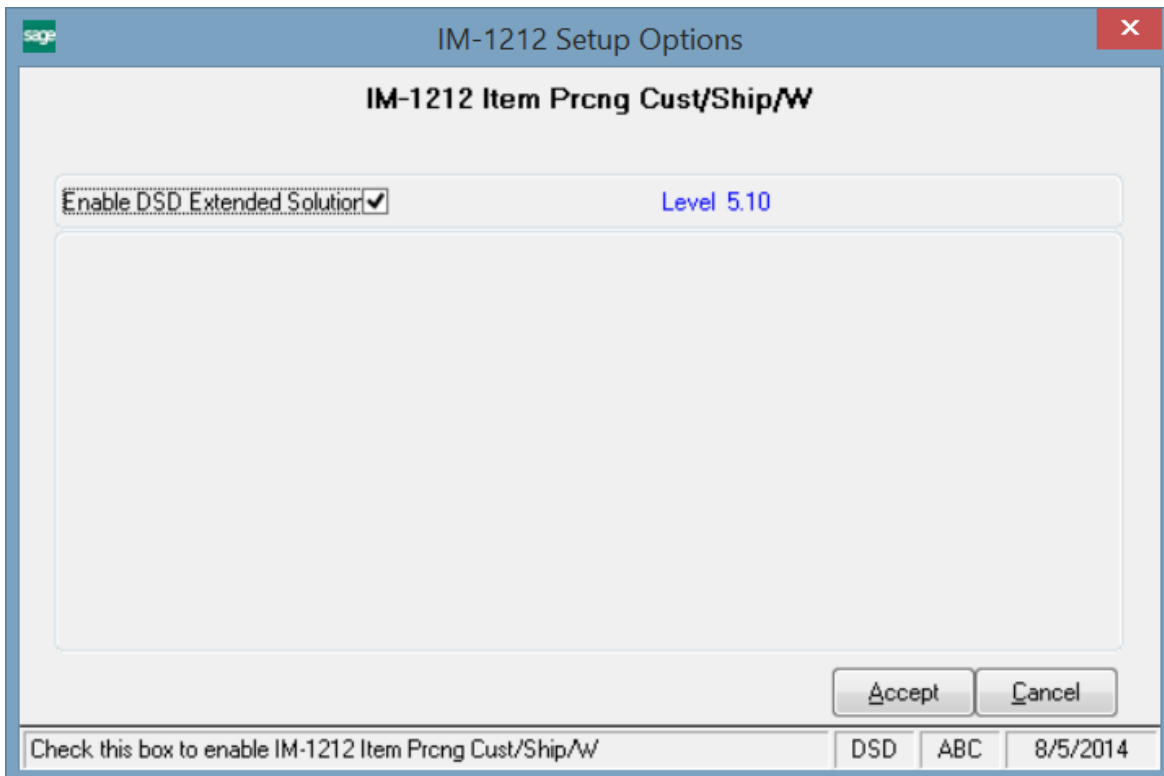

Get Adobe Acrobat: Opens the Adobe Acrobat website to the page where Acrobat can be downloaded and installed.

Uninstall Enhancement If this option is available, then selecting this button will start the un-install process, removing the enhancement from the system.

There are also links to the DSD website and the Enhancement page on that site.

Section C: Setup

Upon completion of software installation, you will need to access the DSD Extended Solutions Setup from the Inventory Management Setup menu. Select this part number and the Setup screen for this Extended Solution will appear. Check the 'Enable DSD Extended Solution' box to activate this Extended Solution.

Role Maintenance

The following Task has been added to Inventory Management, Setup:

- Item Pricing by Customer/Ship To Code/Warehouse

You should visit this Setup screen after each upgrade or reinstallation of this Extended Solution.

Section D: System Operations

Operation

A new Item Pricing by Customer/Ship To Code/Warehouse option has been added to the Inventory Management Setup Menu. When this screen is accessed, you will be prompted for a Customer Number, Ship To Code, Item Number, and Warehouse Code. You must define a Customer Number and an Item Number per record, but either the Ship To Code or the Warehouse can be left blank.

The first screenshot shows the 'Item Pricing by Customer/Ship To/Warehouse' window with the following data:

| | | |
|----------------|---------------|--------------------------------|
| Customer No. | 01-ABF | American Business Futures |
| Ship To Code | 2 | American Business Futures |
| Item Number | 1001-HON-H252 | HON 2 DRAWER LETTER FLE W/O LK |
| Warehouse Code | 001 | EAST WAREHOUSE |
| Item Price | 90.000 | |

The second screenshot shows the same window with the following data:

| | | |
|----------------|---------------|--------------------------------|
| Customer No. | 02-JELCO | Jellco Packing |
| Ship To Code | | |
| Item Number | 1001-HON-H252 | HON 2 DRAWER LETTER FLE W/O LK |
| Warehouse Code | | |
| Item Price | 100.000 | |

Once these have been entered, you will be prompted for a Unit Price (in the standard Unit of Measure). Selecting the button next to the customer number field will display a listing of all records for this extended solution and may be selected by double-clicking on the desired entry.

The 'Price By Customer ShipTo Whse' window displays a table with the following data:

| Customer | Ship To | Item | Warehouse | Price |
|----------|---------|---------------|-----------|-------|
| 01ABF | 1 | 1001-HON-H252 | 000 | 85 |
| 01ABF | 2 | 1001-HON-H252 | 001 | 90 |
| 02JELCO | | 1001-HON-H252 | | 100 |

Below the table, there is a search field with the text '<default>' and an 'Find' button. There are also buttons for 'Filters...', 'Custom...', 'Select', 'Cancel', and a help icon. At the bottom, it says 'Found 3 records'.

There is also a 'Copy' option available. If you click the 'Copy' button, you will be able copy the current entry to a range of Ship To and Warehouse codes. All other fields will remain the same.

You will also have the ability to select the print button to print a listing of the all the Item Price entries. This will page break by Customer Number.

| Item Pricing by Customer/ShipTo/Warehouse Listing | | | | ABC Distribution and Service Corp. (ABC) |
|---|-----------------|----------------------------------|------------|--|
| ShipTo Code | Item Code | Warehouse Code | Item Price | |
| Customer No: 01-ABF | | American Business Futures | | |
| 1 | 1001-HON-H252 | 000 | 85.000 | |
| 2 | 1001-HON-H252 | 001 | 90.000 | |
| Customer No: 01-AVNET | | Avnet Processing Corp | | |
| | 1001-HON-H252LK | | 90.000 | |
| 1 | 1001-HON-H252LK | 000 | 90.000 | |
| Customer No: 02-JELCO | | Jelco Packing | | |
| | 1001-HON-H252 | | 100.000 | |

Note: The pricing defined here will take precedence over all other pricing methodology in Sales Order and S/O Invoice entry. If there is no pricing record in this new file for the item entered on a line, then standard Sage 100 pricing will calculate the price.

The features of this Extended Solution are not available in Sales Order Shipping Data Entry.

Integration with SO-1067

When SO-1067 is installed and enabled, the IM-1212 price calculation will occur when the Ship-To Code on the line is entered or changed. If the line Ship-To Code is blank, the Extended Solution will attempt to locate an item price record using the header Ship-To Code.
